

## Downtown San Diego Bike Tour

This scenic biking tour is a beginner, mostly flat tour lead by Hike Bike Kayak's expert naturalist and historian guides. The duration of the tour is approximately 1.5-2 hours. A very scenic section of Downtown San Diego is along Harbor Drive where we take in the sights of the beautiful San Diego Bay, Coronado Island, the Naval Base and the *Star of India* - the world's oldest active sailing ship built in 1863. Along the way, we will also see the famous San Diego Gas Lamp Quarter and Petco Park.

While the beauty of this route impresses on its own, bikers will have the pleasure of professional Hike Bike Kayak guides providing historical, environmental, and cultural insights into our local treasures while ensuring guest safety and quality equipment.
